EXPERIENCE

Flutter Developer, Scale Up Ads Agency 20 July 2025 – Present
43 Mohakhali C/A, Dhaka 1212

- Develop and maintain cross-platform Android and iOS apps with Flutter and Dart, turning Figma designs into responsive interfaces.
- Integrate REST APIs with Dio and Firebase services; manage app state with GetX and local data with Hive and Flutter Secure Storage.
- Build Google Maps features, including markers, live location tracking, geolocation, and map-based reporting.
- Implement in-app purchases and subscription plans for Google Play and the App Store, plus banner, interstitial, and rewarded AdMob ads.
- Add real-time audio and video calling, and connect AI APIs to in-app features.
- Implement secure login with Google Sign-In and Firebase Authentication.
- Test, debug, and improve app performance, then manage releases through Google Play Console, App Store Connect, and TestFlight.
- Work with clients, designers, and backend developers, using Git and GitHub for version control.
